5. The border sector was controlled primarily by posts having three soldiers each. In November 1951, the construction of a wire entanglement was started, a tracing strip was cleared, and trenches and machine gun emplacements were dug about 700 meters behind the border line.

6. Up to late January 1951, an infantry regiment, identified as Jana Vizky, was located in C. Ludejovice (O 49/1 26). Its 1st Bn, commanded by Staff Captain Jerabek (fnu), was quartered in a barracks installation at the southwestern exit of Kaplice (O 49/1 23). The installation included about 20 buildings, mostly one-story, and was fenced in by barbed wire. Some officers' residences were built near the installation in late 1950. Source also learned that a tank unit and an artillery unit were stationed in C. Ludejovice. In late December 1950, source observed 7 or 8 artillery pieces, each drawn by four horses. (3)

Cesky Krumlov.

7. In January 1951, an MCO school, commanded by Senior Lieutenant Krecek (fnu), was located in C. Krumlov (P 49/1 34). The school, which was quartered in a large compound north of the city and northwest of the railroad station, consisted of 1 infantry company, 1 submachine gun company, 1 heavy machine gun company, 1 mortar company with mortars of about 80 mm, 1 battery with about 10 x 45-mm guns and 1 battery with 3 heavy artillery pieces. The installation also quartered a motor transport unit with about 100 trucks, which did not belong to the school; one engineer unit with bridge construction material; and one cavalry unit of about 100 men. (4)

Comments.

- (1) Another report mentioned General Smoldas (fnu) as the deputy commander of Unit Utvar No 9600.
- (2) The PS battalion in Brance and its commanding officer, Lieutenant Hanys (fnu), are confirmed. The information on the companies substantially agrees with previous reports.
- (3) Another deserter stated, in November 1951, that a motorized AE battalion in C. Krumlov was subordinate to the Vizky division. The identification of Jana Vizky is known only in connection with the 3d Inf Regt of the 3d Mz Div in Kromeritz. Units carried in C. Ludejovice are the 1st Inf Div and the 2nd Inf Div. The 1st Inf Div was commanded by Staff Captain Jerabek (fnu) was the political officer of this regiment until September 1949. The disposition of units in the Ludejovice area has changed considerably, and it has not been determined whether the 1st Inf Div has been reorganized into a motorized or a mechanized division, or whether there has been a large scale regrouping of units.

- (4) According to another report, this compound was occupied by an AT artillery battalion of the Zizkov Division, and by motorized infantry and tank troops.
- (5) Reports prior to 1949 stated that the 8th Inf Bn, identified as Slezky, was located in Frydek-Mystek and was subordinate to the 7th Inf Brig in Novo Jicin. Apparently, this brigade was reorganized into a division but did not leave its billeting area.
